-3-

The ILWU occupies a strategic position in that it has a virtual monopoly on longshore labor in ports on the Pacific Coast of the U.S., in Alaska, and in Hawaii.

2. The All Japan Harbor Workers Union (Zen Nihon Kowan Rodo Kumiai - Zenkowan)

Located at 1825-2 Sanno Ota-Ku, Tokyo, Zenkowan is affiliated with the General Council of Trade Unions of Japan (Nihon Rodo Kumiai Sohyogikai - SOHYO). Zenkowan has a claimed membership of 20,261.

Title of Conference

Third International Conference of the TUI of Chemical and Oil Workers

Date:

25 May 1959

-4-

Place:

Leipzig

Sponsorship:

Trade Unions International of Chemical and Oil Workers,
a trade department of the WFTU.

Probable Attendance:

At its 1954 Conference this TUI claimed attendance of 130 delegates from 34 countries. It is anticipated that the proposed Conference will attempt to surpass this figure by making the Conference as widely representative as possible. Emphasis will be placed on colonial and semi-colonial countries.

Comments:

Georges Van Haute, Secretary-General of the TUI, told the Hungarian Press on January 13 that the 3rd International Conference of the TUI would take place in Leipzig in May. Federations not affiliated to the WFTU would take part, including those affiliated to the International Confederation of Free Trade Unions (ICFTU), the International Federation of Christian Trade Unions, the International Federation of Arab Trade Unions, and others belonging to no international federation. The importance of the Conference would be enhanced by the fact that it would deal with professional problems of all branches of the industries, and would provide an opportunity to discuss international questions of the chemical, petroleum and allied industries. The agenda would include questions of trade union co-operation, living and working conditions, and the tasks of the affiliated unions in the struggle against colonial oppression, the abuses of international monopolies, and for national independence.

Title of Conference:

First International Conference of the International
Trade Union of Workers in Commerce.

Date:

1-4 June 1959

Place:

Prague, Czechoslovakia

Sponsorship:

World Federation of Trade Unions (WFTU)

Evaluation of Meeting:

It is believed that the attempt to organize this new TUI as a trade department of the WFTU is being made in order to counteract the influence of the International Federation of Commercial, Clerical and Technical Employees, which is affiliated with the International Confederation of Free Trade Unions.

Comments:

Pierre Delon, Secretary-General of the French National Federation of Office Workers, has stated that the main purpose of the Conference was to form a TUI of Workers in Commerce and to help to bring about close ties between these workers and their trade unions in all countries. Subjects to be discussed would include wages, the general introduction of old-age pension schemes, working hours, working conditions, health, and the general application of the ILO Convention No. 100 on equal pay for equal work. The Conference would also call "for the suspension of death-bringing tests and a ban on atomic weapons of mass destruction".

-6-

Trade Unions which have announced that they will take part in the Conference include: the Union of Commercial Workers in the State of Rio Grande do Sul, Brazil, the Union of Commercial, Bank and Insurance Workers of the Cameroons, and the Dutch Union of Commercial, Bank and Insurance Workers (E.V.C. 1958).

The Preparatory Committee for the First International Conference of Workers in Commerce was reported to have planned a second meeting in Prague for March 3 and 4, 1958 to examine the state of preparations and the draft reports for the conference.
